Services Offered

1. Custom Web application/Product Development
2. Cross platform mobile apps development
3. Software Maintenance support for applications developed by Rensol or other organizations.
4. Staff Augmentation
5. Application migration
6. CRM Implementation on MS Dynamics and SharePoint - on premise or on cloud.
7. Data Science and Data Analytics using Power BI and other tools.
8. Simplified Living – Suite of Cloud Services
9. Not for Profit – Global Partner for iMIS -World's most sought-after product. Implementation and support

On-time High Quality Delivery

Simplified Living is a complete managed service to **automate business and community processes**. It allows paperless operations and enables users to use from **any device from any location**. It is **cloud based** so you need to pay as you go and thus it is very cost effective.

Rensol has a basket of proven range of products under Simplified Living product suite. It is a one stop solution for all the **business operations** requirements

Power of Simplicity

Our Suite of Products

Rensol has a basket of proven range of products under Simplified Living product suite.

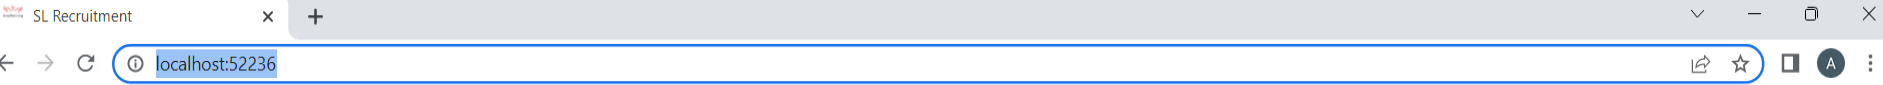

1. SL People : A comprehensive HRMS (Human resources management systems) tool to manage complete employee cycle i.e. from job posting to recruitment to onboarding to appraisal to pay rolls to retirement. It includes Geo tagged attendance and time sheet system for their contractors .
2. SL Recruit: Entire recruitment management, not just resume upload.
3. SL Engage: Membership/Engagement management system.
4. SL Docs : A complete document management system.
5. SL DocGen: One stop solution for creation & distribution of template based/Rules based documents e.g. Purchase orders, sales contracts, employment contracts, legal agreements etc
6. SL Scm- Supply Chain management solution already implemented in Canada and now we are doing India implementation.

SL Recruit

1. HR Department of an organization can post job requirements and a Job reference number(like ticket number) is assigned to each JD
2. Allows registration of recruiters.
3. JDs can be sent to recruiters or to internal people with Job reference number.
4. Recruiter can come online, and can fill out a description about the candidate.
5. HR can define the process for selection of the candidates.
6. HR can assign marks to each process and then generate report to get a comparative evaluation of the candidates for a given post.
7. Select the candidate and send appointment letter based on the decision of the recruitment committee.
8. Direct entry of resume by candidates and match making feature is available.
