About the Bringmea app

- Bringmea is a food, Grocery and item delivery mobile app created by Rensol technologies.
- These apps have been launched in the 1st week of September in Sydney.
- There are three apps along with an admin portal.
- These three mobile apps are available in Google and Apple marketplaces.

Bringmea is the first Australian 24/7 on demand delivery service delivering whatever, whenever. Whatever you need, wherever it is, Bringmea will deliver it. Offering affordable on demand delivery, Bringmea is the first app made for Australian's offering unrestricted on demand delivery.

- Black – No possibility
Red – Limited chance.
Amber – Good Chance, but needs working
Green – Excellent chance

Contractor Management for Hewlett Packard

Rensol's products are supporting some of the largest companies in India in association with Hewlett Packard (HP). The most used Rensol product for HP customers is Contractor Management solution. Each company has got many contract resources. Rensol application helps HP to manage these contractors.

The screenshot shows the Cybix Contractor Management interface. The top navigation bar includes 'Home', 'Hewlett Packard Enterprise', the date '25/05/2020 18:01:04', and the user 'ABC Bahurudeen'. The left sidebar has a 'Transaction' menu with options: 'Create/Update Contractor Profile', 'Update Email ID', 'Mark/View Attendance', 'Leave Request', 'Leave Cancel Request', and 'Timesheet'. Below this are 'Reports' and 'Resignation' sections. The main content area is titled 'Contractor Attendance' and contains 'Personal Information' and 'Attendance Information' sections. The 'Personal Information' section displays fields for PSMS Id (C/B445), Project (Ford India Ltd), Contractor Name (ABC Bahurudeen), Project Location (Chennai), Partner Name (Allegis Services India Pvt Ltd), and Project Segment (AMS Delivery). The 'Attendance Information' section includes a 'Shift' dropdown (General), 'In Time' fields (HH:MM:SS), a 'Date' dropdown (25/05/2020), and a 'Location' dropdown. An 'IN' button is present at the bottom right of the attendance section.

Key Features:

1. Automated attendance & Timesheet
2. Location tracking using mobile
3. Leave management
4. Exit Management
5. Email Alerts & Reminders
6. Staff Profile Management
7. Region wise Holiday calendars
8. Various Reports

Over 2000 users from Large Corporates such as

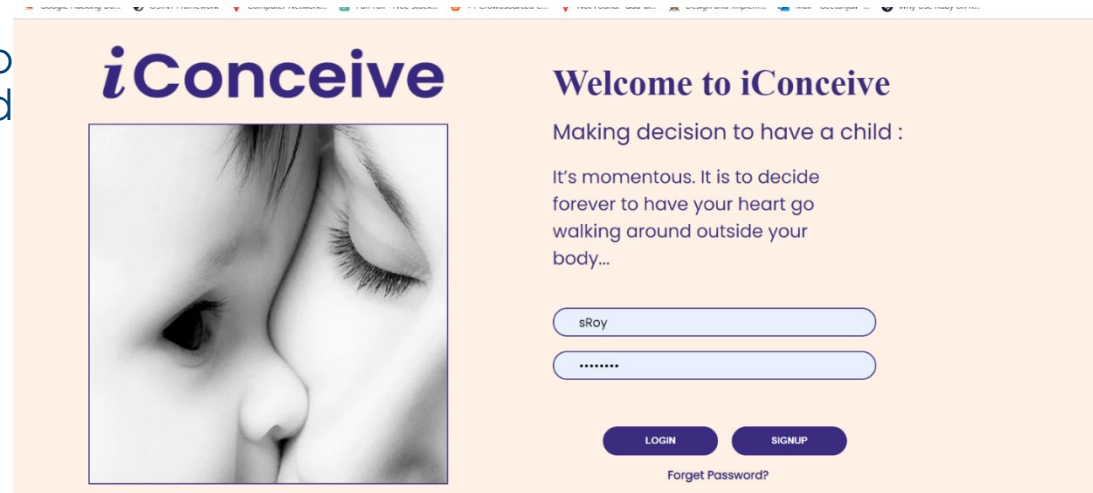

1. Max Healthcare
2. ICICI Bank
3. Indian Oil Corporation Limited
4. Maruti Suzuki India Limited
5. Axis Bank
6. Ericsson
7. Life Insurance Corporation
8. Bharat Petroleum Corporation Limited
9. Bombay Stock Exchange

iConceive

iConceive is multi tenant architecture product consisting of a web and mobile application for IVF clinics.

Conceive Application has two components: Web App and Mobile App

1. WebApp allows an IVF specialist medical practice to create a treatment plan and then issue it by transmitting to the patient's smart phone(Mobile App).
2. The patient can view treatment plan in Mobile App for self-administration during the treatment cycle.
3. The patient interacts with the mobile app to acknowledge the completion of tasks in the cycle, by noting the dosage taken by her.
4. The calendar, timeline and reminders in iConceive Mobile App is to remind the patient about treatment activities.

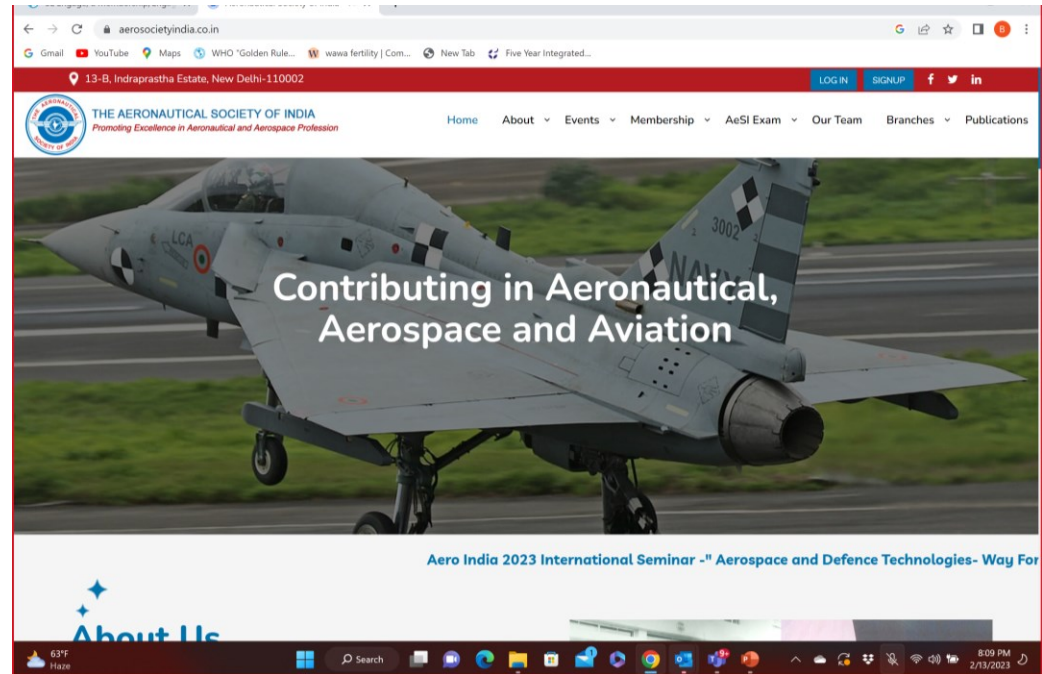

SL Engage- Membership Management System

Rensol has launched Membership/Engagement management system at Aeronautical Society of India. Our Ex-President Dr. A.P.J. Abdul Kalam was Secretary General of this prestigious institute. It has members from organisations such as HAL, DRDO, ISRO, NAL among other high profile organisations. Currently, it is being used by 15,000 members.

Key Features

1. A responsive web-based application
2. CMS based home page
3. Joining form
4. Renewal/Upgrade to higher member
5. Payment gateway integration
6. Scheduling of Events
7. Blogs
8. Online publication
9. Display of News
10. Membership directory
11. And many others
12. A mobile app is being planned

Products Offered - Plug & Play with minor customization
